

IMPORTANT REQUEST FROM YOUR WATER SUPPLIER

Dear Water Customer,

The Environmental Protection Agency (EPA) recently announced changes to drinking water regulations that require water suppliers to identify all materials used in the construction of the water system. The goal of these changes is to identify and remove all lead pipes in the drinking water system. The water supplier must identify all construction materials used on both the supplier's AND the customer's side of the water meter, which means that we will need your help!

The Kansas Department of Health and Environment (KDHE) is requiring the water supplier to submit this information before October 16, 2024. If the required information cannot be gathered from the home owner, KDHE may require the water supplier to excavate private lines in order to identify them. That would be very time consuming and expensive.

We need your help in order to complete this requirement. Please complete the attached survey as soon as possible.

Thank you for your participation!

SERVICE ADDRESS:

CUSTOMER NAME:

SIGNATURE / DATE:

Because of recent updates to drinking water regulations, the Kansas Department of Health and Environment (KDHE) is requiring each public water system to gather data on their customer's plumbing. KDHE is requiring all water systems to identify each service line, including private home plumbing materials.

The following information is needed about your home's plumbing.

Water service line (water line from the meter to the house) construction material	<input type="checkbox"/> Lead	<input type="checkbox"/> Copper	<input type="checkbox"/> Galvanized Steel	<input type="checkbox"/> PVC	<input type="checkbox"/> HDPE
	<input type="checkbox"/> PEX	<input type="checkbox"/> Asbestos-Cement	<input type="checkbox"/> Other Non-Lead		
Water service line size	<input type="text"/> inches				
Water service line installation date	<input type="text"/> Year				
Building Type	<input type="checkbox"/> Single-Family Residence	<input type="checkbox"/> Multi-Family Residence (Apartment)	<input type="checkbox"/> Building	<input type="checkbox"/> Other	
Water softener, filter or other treatment	<input type="checkbox"/> Yes	<input type="checkbox"/> No			
Home internal plumbing material	<input type="checkbox"/> Lead	<input type="checkbox"/> Copper	<input type="checkbox"/> Copper Pipe with Lead Solder	<input type="checkbox"/> Galvanized Steel	<input type="checkbox"/> PVC
	<input type="checkbox"/> HDPE	<input type="checkbox"/> PEX	<input type="checkbox"/> Other Non-Lead		
Secondary internal plumbing material	<input type="checkbox"/> Lead	<input type="checkbox"/> Copper	<input type="checkbox"/> Copper Pipe with Lead Solder	<input type="checkbox"/> Galvanized Steel	<input type="checkbox"/> Other Non-Lead
	<input type="checkbox"/> PVC	<input type="checkbox"/> HDPE	<input type="checkbox"/> PEX		
Year (range) internal plumbing was installed	<input type="checkbox"/> Before 1989	<input type="checkbox"/> Between 1989 and 2014	<input type="checkbox"/> After 2014
